I was briefly (not thoroughly) looking at the results with the figure as reference...

and CX15 is misplaced in the draft figure.... I surmised that this is the sample collected in the apt. behind Mafalda which is the building to the right of 11 A Carbonel Ext (not AMB)

Hi Denise

draft only....it needs to be QA'd

I'm not sure what that SS pt is at EQP.....anyways this may be useful for now

Jeff
